Product Description

AC240V Efficient Heat Dissipation 500W LED Sports Stadium Lighting for Pier

Featuring efficient heat dissipation, this 500W LED sports stadium light operates on AC240V and is perfect for illuminating piers. Its advanced cooling system prevents overheating, ensuring consistent performance and longevity. The light delivers high-intensity brightness and is built to endure harsh marine environments, making it a reliable choice for outdoor sports facilities and waterfront areas.

Product Details

The external IP67 driver is housed in a specialized iron shell, isolated from the lamp body, providing thermal separation and extended lifespan.

Each lamp module can be precisely adjusted to enhance on-site lighting parameters.

The lamp housing surface undergoes anti-corrosion and electrophoresis treatments for increased durability.

Features IP66 rating for dust-proof, moisture-proof, and waterproof performance.

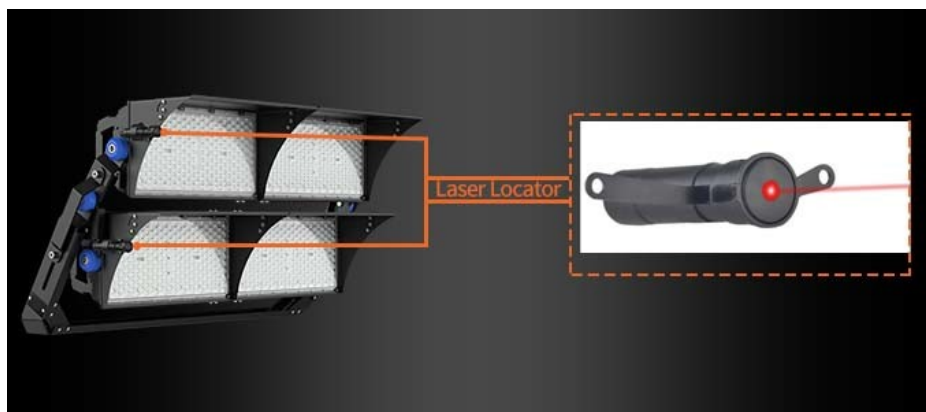

Equipped with an excellent optical lens design for uniform light distribution, high efficacy of 150lm, low glare, and long-distance projection.

Offers various intelligent control options such as DALI and DMX for flexible lighting adjustments.
