## Product Description

### Energy Saving 1000W Flood Light in Cricket Stadium Sports Light

Experience significant energy savings with our 1000W flood lights designed for cricket stadiums. These sports lights deliver bright and comprehensive coverage, ensuring every part of the stadium is well-lit. Their energy-saving design helps reduce electricity bills while maintaining excellent lighting quality for all types of sporting events.

### Product Features

**High-performance LED chips** with precision lenses deliver up to 150lm/W light efficiency, reducing glare and light spillage. Provides even and gentle illumination with options for increased efficacy.

**Flexible stadium light options** including 15°, 30°, 60°, and 90° angles. Features high-transmittance PC lenses with durability and resistance to yellowing.

**Durable aluminum build** with integral molding and effective heat dissipation through extensive radiation fins. Coated with UV-resistant anti-corrosion technology and rated IP66.

**Small yet powerful design** with enhanced safety and reduced wind resistance compared to traditional module lighting.
