Product Description

Pole-Mounted 2000W Stadium Sport Spot Light for Airport Terminal

This 2000W pole-mounted stadium spotlight is specifically designed for airport terminal lighting. Engineered for high-intensity illumination, it provides clear, uniform light across expansive areas, ensuring enhanced visibility and safety for airport operations. Its durable construction and robust design withstand the rigors of high-traffic environments, while its efficient LED technology minimizes maintenance and energy costs. Ideal for illuminating large terminals and ensuring optimal lighting for both operational and passenger areas.

Product Details

An IP67-rated external driver is placed within a specialized iron shell, preventing contact with the lamp body and ensuring thermal isolation for increased longevity.

Each lamp module can be adjusted with precision to improve on-site lighting parameters.

The lamp housing is treated with anti-corrosion and electrophoresis processes for enhanced durability.

Designed with IP66 standards for dust, moisture, and waterproof protection.

Excellent optics provide uniform light spots, high efficiency of 150lm, low glare, and effective long-range projection.

Available with various intelligent control systems such as DALI and DMX for flexible lighting control options.

Product Parameters

Model	YXR-QC-2000W-K
Power	2000W
Lumens(lm)	320000
