## Product Description

### Sound, Light, and Motion: Is Noise Really Important?

Of course it's important! No one likes to be bothered by noise in the background. In contrast, LED lighthouses are like friends who never make loud noises - quiet and considerate. Their operation does not involve the noisy sound of generators like large jet planes, so you can focus on your work without worrying about being at a rock concert. At the same time, LED lights themselves are also very quiet and do not emit annoying buzzing sounds. If you need a quiet lighting solution, LED lighthouses are undoubtedly the best choice.

### Product Features

**Protective filter:** Blocks mosquitoes, dust, and debris, ensuring superior performance and longevity.

**360-degree lighting:** Ensures wide area coverage with all-around illumination.

**Non-glare light:** Soft, diffused lighting; Lightweight and portable.

**Energy-efficient:**  $\geq 160\text{lm/W}$  with low power consumption.

**Adjustable brightness:** Dimmable via knob switch or remote control; Includes on-off switch.

**Easy setup:** Foldable tripod and cover for quick assembly.

**Robust balloon design:** Waterproof, UV resistant, and fire retardant with over 50,000 hours of lifespan.
