

## LED Balloon Light Tower with 60m Remote Control Distance 5 Minutes Inflation Time and 10ft Inflated Size for Versatile Lighting Needs

### Our Product Introduction

for more products please visit us on [ushineraylight.com](http://ushineraylight.com)

#### Basic Information

#### Product Specification

- Inflation Time: 5 Minutes
- Inflated Size: 10ft
- Led Chip: Lumileds 2835
- Collapsed Size: 3ft
- Led Chips: Lumileds 2835
- Lumen: 224000lm
- Application: Jobsite Lighting
- Remote Control Distance: 60m
- Highlight: 224000lm LED balloon light tower, 60m remote control LED balloon light, versatile lighting LED balloon tower

## Product Description

### Product Description:

The LED Balloon Light Tower is an innovative lighting solution designed for emergency rescue operations, construction sites, outdoor events, and other applications that require powerful and reliable illumination. This portable lighting system features a unique balloon design that provides 360-degree lighting coverage, making it ideal for lighting up large areas quickly and effectively.

Powered by both AC and DC sources, the LED Balloon Light Tower offers versatile power supply options to ensure continuous operation in various settings. Whether you have access to a traditional power outlet or need to rely on a generator, this lighting tower can adapt to different power sources for maximum convenience and flexibility.

When collapsed, the LED Balloon Light Tower measures 3ft in size, making it compact and easy to transport between locations. Its lightweight and portable design allow for quick deployment and setup, ensuring that you can bring powerful lighting wherever it is needed most without hassle.

With an IP65 waterproof rating, the LED Balloon Light Tower is built to withstand the elements and harsh outdoor conditions. Whether it's rain, snow, or dust, this lighting tower is designed to keep shining bright and provide reliable illumination in any environment. The durable construction ensures long-lasting performance, making it a dependable lighting solution for both indoor and outdoor use.

In addition to its powerful lighting capabilities, the LED Balloon Light Tower is specifically designed for emergency rescue situations where immediate and effective illumination is crucial. Its bright LED lights offer high visibility and coverage, making it easier for rescue teams to navigate and operate in challenging conditions. Whether it's a natural disaster, accident site, or search and rescue operation, this lighting tower can provide the lighting support needed to carry out critical tasks efficiently.

Equipped with support for generators, the LED Balloon Light Tower offers an added level of reliability and backup power supply. In situations where access to traditional power sources may be limited or unreliable, the ability to connect to a generator ensures continuous operation and lighting performance. This feature enhances the versatility and usability of the lighting tower, making it a dependable lighting solution in various scenarios.

Overall, the LED Balloon Light Tower is a versatile, portable, and reliable lighting solution that is well-suited for emergency rescue operations, construction sites, outdoor events, and more. With its powerful LED lights, multiple power supply options, compact size, waterproof design, and generator support, this lighting tower offers the performance and durability needed to meet the demands of diverse lighting applications.

### Features:

Product Name: LED Balloon Light Tower

Power Supply: AC/DC

Usage: Emergency Rescue

Lumen: 224000lm

Inflation Time: 5 Minutes

Color Temperature: 5000K

### Technical Parameters:

|                         |                  |
|-------------------------|------------------|
| IP Rate                 | IP65 Waterproof  |
| Remote Control Distance | 60m              |
| Application             | Jobsite Lighting |
| Collapsed Size          | 3ft              |
| Color Temperature       | 5000K            |
| Usage                   | Emergency Rescue |
| Led Chip                | Lumileds 2835    |
| Inflation Time          | 5 Minutes        |
| Generator               | Support          |

### Applications:

The LED light balloon tower with Lumileds 2835 LED chip is a versatile lighting solution suitable for a wide range of applications, with emergency rescue scenarios being one of its primary uses. With an impressive lumen output of 224,000lm, this LED illuminated balloon tower provides powerful and bright lighting to illuminate large areas effectively.

Standing at an inflated size of 10ft, the LED light balloon tower is easily visible from a distance, making it ideal for emergency situations where visibility is crucial. The remote control distance of 60m allows for convenient operation and adjustment of the lighting settings from a distance, providing flexibility and ease of use.

One of the key product application occasions for the LED light balloon tower is in emergency response situations such as natural disasters, accidents, or search and rescue missions. The bright and wide-reaching illumination provided by the tower can aid in locating and assisting individuals in need, making it an invaluable tool for emergency responders.

Additionally, the LED light balloon tower can also be used in construction sites, outdoor events, night-time operations, and other scenarios where temporary, portable, and powerful lighting is required. Its durable construction and efficient LED chip ensure long-lasting performance and reliability even in challenging environments.

Whether used for emergency rescue missions, construction projects, or outdoor events, the LED light balloon tower offers a practical and

effective lighting solution that delivers high visibility and illumination wherever it is deployed.

**Customization:**

Customize your LED light balloon tower with our Product Customization Services: -----

- Led Chip: Lumileds 2835
- Collapsed Size: 3ft
- Lumen: 224000lm
- Inflation Time: 5 Minutes
- Led Chips: Lumileds 2835
