Basic Information

Product Specification

- Collapsed Size: 3ft
- Inflated Size: 10ft
- Generator: Support
- Lumen: 224000lm
- Usage: Emergency Rescue
- Dimmable: 4-Level Dimming
- Power Supply: AC/DC
- Remote Control Distance: 60m
- Highlight: IP65 waterproof LED balloon light,
LED balloon light with Lumileds 2835 chips,
5000K color temperature LED light tower

Product Description

Product Description:

Powered by an adaptable AC/DC power supply, the LED Illuminated Balloon Light Tower ensures reliable performance in any environment. Whether you need to connect to a standard power source or rely on a portable generator, this versatile lighting solution offers the flexibility you need to stay operational in critical situations. The ability to switch between power sources seamlessly makes this LED light balloon tower a dependable asset for emergency response teams.

With a color temperature of 5000K, the LED Illuminated Balloon Light Tower delivers bright, natural-looking light that enhances visibility and safety during rescue operations. The balanced color temperature ensures optimal clarity and visibility, allowing rescue teams to work efficiently and effectively in low-light conditions. Whether you are conducting search and rescue missions or providing emergency assistance, the 5000K color temperature of this LED balloon lighting tower ensures that your work area is well-lit and visible.

Measuring at a collapsed size of 3ft, the LED Illuminated Balloon Light Tower offers a compact and portable lighting solution that can be easily transported and deployed in various locations. The collapsible design of this LED light balloon tower enables quick setup and takedown, allowing emergency crews to respond swiftly to changing situations. Despite its compact size when collapsed, this LED balloon lighting tower expands to provide ample illumination coverage, making it an indispensable tool for emergency rescue scenarios.

Designed for emergency rescue applications, the LED Illuminated Balloon Light Tower is specifically engineered to meet the demands of dynamic and challenging environments. Whether you are responding to natural disasters, accidents, or other emergencies, this LED light balloon tower offers the lighting performance needed to support critical operations. The durable construction and robust design of this LED balloon lighting tower ensure reliability and longevity in high-stress situations.

Equipped with support for generators, the LED Illuminated Balloon Light Tower offers added convenience and versatility for emergency response teams operating in remote or off-grid locations. By accommodating external power sources, such as portable generators, this LED light balloon tower ensures continuous operation and extended runtime for prolonged rescue missions. The generator support feature enhances the adaptability and usability of this LED balloon lighting tower, making it an essential lighting solution for emergency scenarios.

Features:

Product Name: LED Balloon Light Tower

Collapsed Size: 3ft

Led Chip: Lumileds 2835

Led Chips: Lumileds 2835

Usage: Emergency Rescue

Application: Jobsite Lighting

Technical Parameters:

Dimmable	4-Level Dimming
Lumen	224000lm
Color Temperature	5000K
Remote Control Distance	60m
Usage	Emergency Rescue
Led Chips	Lumileds 2835
Power Supply	AC/DC
Generator	Support
Collapsed Size	3ft
Ip Rate	IP65 Waterproof

Applications:

LED Illuminated balloon tower is a versatile and innovative lighting solution that can be used in a variety of occasions and scenarios. With its high-quality Lumileds 2835 LED chips, this LED balloon light tower provides bright and efficient illumination at a color temperature of 5000K.

One of the key product applications for the LED balloon light tower is outdoor events such as concerts, festivals, and outdoor parties. The illuminated balloon tower can serve as a focal point, providing both lighting and decoration in a unique and eye-catching way. Its 10ft inflated size makes it visible from a distance, creating a stunning visual impact.

Furthermore, the LED light balloon tower is also suitable for construction sites and outdoor work areas. The powerful Lumileds 2835 LED chips ensure sufficient lighting for nighttime operations, enhancing safety and productivity. The generator support feature allows the balloon light tower to be used in locations where power sources are limited or unavailable.

For corporate events and product launches, the LED balloon light tower can add a touch of elegance and sophistication to the venue. The customizable lighting options can create a specific ambiance to match the branding or theme of the event. Its portable design makes it easy to set up and move to different locations as needed.

In addition, the LED balloonlight tower is ideal for emergency situations and disaster relief efforts. The bright LED illumination can provide visibility in dark or hazardous conditions, aiding in search and rescue operations. Its durability and weather resistance make it a reliable

lighting solution in challenging environments.
In conclusion, the LED light balloon tower is a versatile and practical lighting solution suitable for a wide range of applications. Whether for entertainment, work, events, or emergencies, this innovative product offers efficient and effective illumination with a touch of style.

Customization:

- Enhance your LED balloonlighting tower with our customizable options:
- Color Temperature: 5000K
 - IP Rate: IP65 Waterproof
 - Inflated Size: 10ft
 - Inflation Time: 5 Minutes
 - Dimmable: 4-Level Dimming
