

IP65 Waterproof LED Balloon Light Tower with 60m Remote Control and Lumileds 2835 LED Chips for Omni Illumination

Our Product Introduction

for more products please visit us on ushineraylight.com

Basic Information

Product Specification

- Ip Rate: IP65 Waterproof
- Feature: Omni Illumination
- Application: Jobsite Lighting
- Remote Control Distance: 60m
- Power Supply: AC/DC
- Usage: Emergency Rescue
- Led Chips: Lumileds 2835
- Inflated Size: 10ft
- Highlight: **AC/DC LED balloon light tower, versatile event lighting balloon tower, dynamic LED balloon power supply**

Product Description

Product Description:

One of the standout features of the LED Balloon Light Tower is its omni illumination, ensuring that light is distributed evenly in all directions. This ensures maximum visibility and coverage, making it ideal for emergency rescue scenarios where visibility is crucial. Equipped with Lumileds 2835 LED chips, this LED balloon light tower delivers superior brightness and energy efficiency, allowing for extended use without compromising on performance. The high-quality LED chips ensure a long lifespan and consistent lighting output, making it a dependable lighting solution for emergency situations.

The LED Balloon Light Tower comes with a remote control that provides a convenient way to adjust the lighting settings from a distance of up to 60 meters. This feature allows for easy customization of the lighting intensity and direction, making it versatile and user-friendly for different applications.

Designed for jobsite lighting, the LED Balloon Light Tower is a versatile and reliable lighting solution that can be used in a wide range of scenarios. Whether it's for emergency rescue operations, construction sites, or outdoor events, this LED balloon light tower offers powerful illumination that enhances visibility and safety.

With its durable construction and high-performance LED chips, the LED Balloon Light Tower is built to withstand challenging environments and provide consistent lighting in any situation. Its portable design and easy setup make it a convenient lighting solution for on-the-go use, ensuring that you have reliable illumination whenever and wherever you need it.

Overall, the LED Balloon Light Tower is a cutting-edge lighting solution that combines advanced LED technology with practical design features to deliver powerful and reliable illumination for emergency rescue and jobsite lighting applications. Its omni illumination, remote control capability, and durable construction make it a versatile and efficient lighting solution that meets the demands of various scenarios.

Features:

Product Name: LED Balloon Light Tower

Led Chip: Lumileds 2835

Feature: Omni Illumination

Color Temperature: 5000K

Collapsed Size: 3ft

Application: Jobsite Lighting

Technical Parameters:

Collapsed Size	3ft
Lumen	224000lm
Application	Jobsite Lighting
Generator	Support
Led Chip	Lumileds 2835
Usage	Emergency Rescue
Inflation Time	5 Minutes
Power Supply	AC/DC
Feature	Omni Illumination
Dimmable	4-Level Dimming

Applications:

The LED light balloon tower is a versatile lighting solution suitable for a wide range of applications due to its unique attributes and features. With both AC and DC power supply options, this product is perfect for outdoor events, construction sites, emergency situations, and any other scenario where reliable lighting is needed.

One of the key benefits of the LED lighting balloon tower is its quick inflation time of just 5 minutes, making it convenient to set up and use in a variety of situations. Whether you need temporary lighting for a nighttime event or emergency lighting during a power outage, this product offers a quick and efficient solution.

With a color temperature of 5000K, the LED illuminated balloon tower provides a bright and clear light that is ideal for creating a safe and well-lit environment. The Lumileds 2835 LED chips used in this product ensure high-quality illumination with low energy consumption, making it a cost-effective lighting solution for both short-term and long-term use.

One of the standout features of the LED light balloon tower is its omni illumination, which means it provides 360-degree lighting coverage for maximum visibility and safety. This makes it ideal for use in large outdoor spaces, construction sites, parking lots, and other areas where consistent and uniform lighting is essential.

Whether you are hosting an outdoor event, working on a construction project, or need emergency lighting in a pinch, the LED lighting balloon tower is a reliable and efficient lighting solution that can meet your needs. Its versatile power supply options, quick inflation time, high-quality LED chips, and omni illumination feature make it a practical choice for a wide range of occasions and scenarios.

Customization:

Enhance your LED Illuminated balloon tower with our customizable product options:

- Lumen: 224000lm
- Generator: Support
- Led Chips: Lumileds 2835
- Power Supply: AC/DC
- Remote Control Distance: 60m
