Basic Information

Product Specification

- Led Chip: Lumileds 2835
- Ip Rate: IP65 Waterproof
- Color Temperature: 5000K
- Generator: Support
- Remote Control Distance: 60m
- Led Chips: Lumileds 2835
- Usage: Emergency Rescue
- Power Supply: AC/DC
- Highlight: high lumen LED balloon light tower, LED illuminated balloon jobsite lighting, 224000lm LED balloon light tower

Product Description

Product Description:

The LED Balloon Light Tower is a cutting-edge lighting solution that combines the convenience of a balloon light with the efficiency of LED technology. This innovative product is perfect for a wide range of applications, from outdoor events and construction sites to emergency situations and industrial projects.

Featuring high-quality Lumileds 2835 LED chips, this LED balloon light tower delivers powerful illumination with a color temperature of 5000K. The bright white light produced by this tower creates a daylight-like environment, enhancing visibility and improving safety in any setting. With an impressive lumen output of 224,000lm, this light tower ensures excellent coverage and brightness, making it ideal for large-scale lighting requirements.

One of the standout features of the LED balloon light tower is its remote control capabilities, allowing users to conveniently adjust settings and brightness levels from a distance of up to 60 meters. This feature enhances usability and flexibility, making it easy to customize the lighting to suit specific needs and preferences. Whether you need to illuminate a vast outdoor area or provide focused light for a particular task, the remote control functionality of this tower makes it simple to achieve the desired lighting effects.

Designed for versatility and ease of use, the LED balloon light tower is compatible with both AC and DC power supplies. This dual power supply option ensures reliable performance in various environments and enables users to power the tower using different sources based on availability and convenience. Whether you are working in a remote location with limited power access or setting up temporary lighting for an event, the flexibility of the power supply options makes the LED balloon light tower a practical and adaptable lighting solution.

When it comes to durability and portability, the LED balloon light tower excels in both aspects. The sturdy construction and robust materials used in its design ensure long-lasting performance, even in challenging conditions. Additionally, the inflatable balloon element of the tower not only provides 360-degree illumination but also makes it lightweight and easy to transport. The compact size and collapsible design of the tower make it convenient to store and carry, allowing users to set up reliable lighting quickly and effortlessly wherever it is needed.

Whether you are looking to illuminate a construction site, enhance visibility at an outdoor event, or provide emergency lighting during power outages, the LED balloon light tower offers a reliable and efficient lighting solution. With its advanced LED technology, remote control functionality, dual power supply options, durability, and portability, this tower is a versatile and practical choice for various lighting applications. Invest in the LED balloon light tower and experience the benefits of superior illumination and convenience in one innovative product.

Features:

Product Name: LED Balloon Light Tower

Feature: Omni Illumination

Remote Control Distance: 60m

Power Supply: AC/DC

Color Temperature: 5000K

Inflated Size: 10ft

Technical Parameters:

Lumen	224000lm
Remote Control Distance	60m
Feature	Omni Illumination
Led Chips	Lumileds 2835
Power Supply	AC/DC
Inflated Size	10ft
Inflation Time	5 Minutes
Application	Jobsite Lighting
Dimmable	4-Level Dimming

Applications:

The LED Balloon Light Tower is a versatile lighting solution that is suitable for a variety of Product Application Occasions and Scenarios. With its quick Inflation Time of just 5 minutes, this LED balloonlight tower can be easily set up in no time, making it ideal for emergency situations.

When Collapsed, the LED lighting balloon tower measures a compact 3ft, allowing for easy storage and transportation. This feature makes it convenient to carry to different locations for various emergency rescue missions.

One of the standout features of this LED balloonlighting tower is its 4-Level Dimming capability, providing users with different lighting options based on their requirements. Whether you need bright illumination for a wide area or softer lighting for a specific task, this tower can adjust to your needs.

Designed for emergency rescue operations, the LED Balloon Light Tower offers Omni Illumination, ensuring that light is evenly distributed in all directions. This is crucial in emergency situations where visibility is key to carrying out rescue missions effectively.

Whether used in search and rescue missions, disaster response efforts, or other emergency situations, the LED lighting balloon tower proves to be a valuable asset. Its portable nature, quick setup time, dimmable lighting options, and omni illumination make it a reliable

lighting solution for critical scenarios.

Customization:

Product Customization Services for the LED Balloon Light Tower: -----
Customize your LED balloonlight tower to meet your specific needs:
Collapsed Size: 3ft
Inflated Size: 10ft
Feature: Omni Illumination
Application: Jobsite Lighting
Dimmable: 4-Level Dimming
