Basic Information

Product Specification

- Ip Rate: IP65 Waterproof
- Power Supply: AC/DC
- Collapsed Size: 3ft
- Feature: Omni Illumination
- Led Chip: Lumileds 2835
- Inflation Time: 5 Minutes
- Remote Control Distance: 60m
- Inflated Size: 10ft
- Highlight: **LED balloon light tower for emergency ,
5-minute inflation LED balloon,
rescue LED light balloon tower**

Product Description

Product Description:

The LED lighting balloon tower is a versatile and practical lighting solution that provides bright and efficient illumination in various settings. With a color temperature of 5000K, this tower emits a natural white light that is ideal for creating a well-lit environment for emergency rescue operations.

Powered by an AC/DC power supply, the LED lighting balloon tower is designed to be easily connected to standard power sources for convenient operation. The use of high-quality Lumileds 2835 LED chips ensures long-lasting performance and energy efficiency, making it a reliable lighting option for emergency situations.

One of the key features of the LED lighting balloon tower is its 4-level dimming capability, allowing users to adjust the brightness of the light to suit their specific needs. Whether you need full brightness for maximum visibility or a softer light for a more subtle effect, this tower provides flexible lighting options to accommodate different scenarios.

Designed for emergency rescue applications, the LED lighting balloon tower is a valuable tool for first responders, search and rescue teams, and other emergency personnel. Its portable and easy-to-install design makes it a practical lighting solution for outdoor or remote locations where traditional lighting sources may be limited or unavailable.

Whether used as a standalone lighting source or as part of a larger lighting setup, the LED lighting balloon tower delivers reliable and consistent illumination to help improve visibility and safety during emergency rescue operations. Its durable construction and efficient LED technology make it a cost-effective and environmentally friendly lighting solution for a wide range of applications.

In summary, the LED lighting balloon tower is a versatile and reliable lighting solution that offers bright and efficient illumination for emergency rescue operations. With its color temperature of 5000K, AC/DC power supply, Lumileds 2835 LED chips, and 4-level dimming capability, this tower provides flexible and customizable lighting options to meet the specific needs of emergency responders. Whether used in outdoor or remote locations, the LED lighting balloon tower is a valuable tool for improving visibility and safety during critical situations.

Features:

Product Name: LED Balloon Light Tower

Lumen: 224000lm

Inflated Size: 10ft

Led Chip: Lumileds 2835

Feature: Omni Illumination

Inflation Time: 5 Minutes

Technical Parameters:

Dimmable	4-Level Dimming
Lumen	224000lm
Ip Rate	IP65 Waterproof
Inflation Time	5 Minutes
Feature	Omni Illumination
Collapsed Size	3ft
Power Supply	AC/DC
Inflated Size	10ft
Led Chip	Lumileds 2835
Application	Jobsite Lighting

Applications:

The LED Balloon Light Tower is a versatile and innovative lighting solution that is perfect for a wide range of application occasions and scenarios. With its unique design and powerful features, this LED balloonlighting tower is sure to make a statement wherever it is used.

One of the key attributes of this product is its remote control distance of 60m. This feature allows users to easily adjust the lighting settings and brightness from a distance, making it ideal for events and situations where convenience is key.

When fully inflated, the LED Balloon Light Tower stands at an impressive 10ft, providing a bright and eye-catching light source that can illuminate large areas with ease. The color temperature of 5000K ensures a natural and bright light that is suitable for a variety of settings. Despite its large size when inflated, the LED Illuminated balloon tower collapses down to just 3ft, making it easy to transport and store when not in use. The quick inflation time of just 5 minutes means that users can set up the tower quickly and efficiently, saving time and effort.

Whether it's for outdoor events, construction sites, emergency situations, or any other scenario that requires reliable and powerful lighting, the LED Balloon Light Tower is the perfect choice. Its durable construction, energy-efficient LED lights, and versatile design make it a must-have for anyone looking to illuminate their space in a unique and effective way.

Customization:

Customize your LED Balloon Light Tower with our Product Customization Services:

- Collapsed Size: 3ft
- Application: Jobsite Lighting
- Lumen: 224000lm
- Generator: Support
- Color Temperature: 5000K
