

LED Balloon Light Tower with 5 Minutes Inflation Time 60m Remote Control and 5000K Color Temperature

Our Product Introduction

for more products please visit us on ushineraylight.com

Basic Information

Product Specification

- Usage: Emergency Rescue
- Inflation Time: 5 Minutes
- Remote Control Distance: 60m
- Color Temperature: 5000K
- Collapsed Size: 3ft
- Led Chip: Lumileds 2835
- Feature: Omni Illumination
- Lumen: 224000lm
- Highlight: **LED balloon light tower 3ft collapsed , jobsite LED light tower 5-minute inflation, inflatable LED light tower for jobsites**

Product Description

Product Description:

The LED Balloon Light Tower operates on both AC and DC power supplies, giving you the flexibility to use it in a wide range of applications. Whether you're working on a construction site, at an outdoor event, or in an emergency response situation, this versatile lighting solution is ready to meet your needs.

With a color temperature of 5000K, the LED Balloon Light Tower delivers bright and natural white light that enhances visibility and reduces eye strain. This optimal color temperature creates a comfortable working environment, allowing you to focus on the task at hand with clarity and precision.

Equipped with a remote control distance of up to 60 meters, the LED Illuminated Balloon Light Tower offers convenient operation and control options. You can easily adjust the lighting settings, brightness levels, and other features from a distance, saving you time and effort while ensuring optimal lighting performance.

In addition to its advanced features, the LED Balloon Light Tower is designed to support generator power sources, making it an ideal choice for off-grid locations and temporary lighting setups. This capability provides you with the freedom to use the LED lighting balloon tower in remote areas or during power outages, ensuring that you always have reliable illumination when you need it most.

Whether you're a contractor, event organizer, emergency responder, or outdoor enthusiast, the LED Balloon Light Tower is the perfect lighting solution for your needs. Its durable construction, energy-efficient LED technology, and versatile power options make it a valuable asset in any situation where reliable and powerful lighting is essential.

Experience the benefits of the LED Balloon Light Tower today and discover how this innovative lighting solution can transform your jobsite, event venue, or emergency response setup. With its superior performance, convenient features, and reliable operation, this LED lighting balloon tower is sure to exceed your expectations and provide you with the lighting quality you deserve.

Features:

Product Name: LED Balloon Light Tower

Led Chips: Lumileds 2835

Dimmable: 4-Level Dimming

Feature: Omni Illumination

Color Temperature: 5000K

Inflation Time: 5 Minutes

Technical Parameters:

IP Rate	IP65 Waterproof
Remote Control Distance	60m
Power Supply	AC/DC
Inflation Time	5 Minutes
Collapsed Size	3ft
Usage	Emergency Rescue
Color Temperature	5000K
Generator	Support
Inflated Size	10ft
Dimmable	4-Level Dimming

Applications:

The LED lighting balloon tower is a versatile and powerful lighting solution suitable for a wide range of application occasions and scenarios. With an impressive lumen output of 224,000lm and equipped with high-quality Lumileds 2835 LED chips, this LED light balloon tower is a reliable choice for various lighting needs.

One of the primary application scenarios for the LED balloon light tower is jobsite lighting. Whether it's a construction site, roadwork project, or any other outdoor job location, this portable and efficient lighting solution ensures optimal visibility and safety for workers during night shifts or low-light conditions.

The Lumileds 2835 LED chips used in this LED balloon light tower offer superior brightness and energy efficiency, making it an ideal choice for extended use in demanding work environments. The power supply options of AC/DC further enhance the flexibility and convenience of this lighting solution, allowing it to be easily connected to different power sources.

Whether used for construction projects, emergency response situations, outdoor events, or any other setting that requires powerful and reliable lighting, the LED lighting balloon tower stands out as a versatile and effective lighting solution. Its durable construction, high lumen output, and efficient LED chips make it a valuable asset for various industries and applications.

Experience the convenience and performance of the LED light balloon tower for your next lighting project, and enjoy the benefits of bright and reliable illumination in any setting.

Customization:

Customize your LED lighting balloon tower to suit your needs with our Product Customization Services. This versatile tower features an inflation time of 5 minutes, making it quick and easy to set up in emergency rescue situations. When collapsed, it measures 3ft for convenient storage and transport. The color temperature of the LED balloon light tower is 5000K, providing bright and clear illumination with an impressive lumen output of 224,000lm.
